Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shawn Foster on 3/8/2007.

In the claims:

In claim 38, at the end of the claim, after "atoms" insert -- , wherein the branched crystalline polypropylene has a Branching Index of 0.95 or less --.

Cancel claims 1-37 and 40.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 6,809,168 discloses in claim 18 a copolymer comprising propylene, alpha-omega diene and a second diene having an internal olefin, the polymer having a high melting temperature. However, the reference includes no discussion of branching index, no examples of a terpolymer, and no specific monomer combinations or conditions for assembling a terpolymer. Therefore, the reference fails

Art Unit: 1713

to anticipate or render obvious the claimed terpolymer because the reference does not provide sufficient guidance for obtaining a terpolymer with a branching index of 0.95 or less.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00.
